The following is an examiner's statement of reasons for allowance: Claim differences over prior art are largely discussed in Remarks of 2-28-2005. These arguments point out differences which together with added limitations as in case of claims 1,3, "vertically oriented plates" and claims 5,6 "capacitor orientations" define patentably over prior art. The "rectangular" power, ground terminals in context of other limitations of claims 1,3, etc also serve to define over prior art.

"

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Neil Abrams at telephone number 571-272-2089.
